### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance:

Claims 1-18 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest that designating a target utility from amongst a plurality of energy utilities and retrieving performance data for the target utility from a database, specifying a benchmark criteria defining a subset of the plurality of utilities and causing performance data for the subset to be retrieved, the subset not including the target utility, as detailed in independent claim 1 and similar to independent claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
